

Track your student's school bus from door to door.

Here Comes The Bus®

What is here comes the bus?

Here Comes The Bus is an easy-to-use website and app that enables you to see the location of your child's school bus on a smartphone, tablet, or personal computer. You know when the bus is near your stop, so you can send your child out at just the right time.

How does it work?

Here Comes The Bus uses global positioning system (GPS) technology to locate and track your child's school bus. It is powered by software from Synovia Solutions, who are experts at tracking data, which they've been providing to fleet managers across North America since 2001.

How do I sign up?

Download the app from the Google Play Store or the Apple Store. Once you create your account, you can add your student(s) to the app.

How much does it cost?

Here Comes The Bus is available at no cost to all families in the district. That's right, it's free for unlimited accounts for families! That means grandparents, babysitters, neighbors, and friends can share the data.

What is the district Number?

The District's code is 29222.

Where do I find my student's ID number?

You can find your student's ID number in PowerSchool. If you do not have a PowerSchool account, you can request one by visiting our website [here](#).

Is the information private and secure?

Yes! *Here Comes The Bus* uses HTTPS, just like a bank or online store, which means that all communications between your web browser and the site is encrypted and secure. (That's what the S in "HTTPS" stands for – *secure*.)

What happens when a driver is absent?

From time to time, bus drivers will be absent. When that happens, it can disrupt the platform because a bus can log in only as one route. If we have to split routes, buses will not show. We will alert parents through our parent notification system.
