Frequently Asked Questions about Employee Assistance Programs (EAP)

1. What is an Employee Assistance Program?
   EAP is a free, voluntary program available to you and your family. It's a benefit for employees that is intended to provide timely, quality, confidential assistance when it's needed.

2. What type of assistance does EAP provide?
   EAP provides short-term counseling for nearly every type of situation that can affect your workplace or personal life. (For a partial list please see inside.)

3. Are my counseling sessions confidential?
   To ensure confidentiality, all counselors are state certified and must hold masters degrees. Counselors may not disclose any information regarding your confidential sessions without your written consent. The only exceptions are when legal requirements impose a "duty to warn" or a court-ordered subpoena has been issued.

4. Do I have to pay for my EAP counseling?
   NO. As an employee, you and your family members are entitled to eight (8) counseling sessions per year. If more than 8 sessions are required, your EAP counselor may offer you additional sessions. If your situation requires extended counseling, your EAP counselor will refer you to a counselor who provides services under your Health Benefits plan. If you do not have coverage, your EAP counselor will attempt to find you services you can afford.
